Quotations furnished by W. B. Hibbs & Co., members of the Chicago Board of Trade, Ribbs Builing, T55 Fifteenth street northwest.
Chicago, April 14.—Wheat climbed a little higher to-day, though the advance was slow and rather tedious. The market seems to have grown top-heavy, and advances are made only after furious, buying by the long interests. Had the prediction not been made so many times of late, and proved false, it might be said the market is playing for a fall. The net advance to-day was three-fourths of a point, the top for May being 1.28%. This was near the close of the day, after a weak and tolisome lession.
